

KURZ FOIL SUGGESTIONS FOR ECOLOGICAL FIBERS PRODUCT LINES

In order to assist our customers in finding the ideal decoration methods for our products, Kurz Foils has provided testing on each of the following products to determine the ideal foil based on various production components. Both Ecological Fibers and Kurz strongly recommend that testing should be done before going to full production.

To request samples of Ecological Fibers' materials go to www.ecofibers.com/sample-request or email samplesma@ecofibers.com.
For foil samples, please visit www.kurzusa.com or email sales@kurzusa.com.

The following recommendations are based on tests that used the following settings:

Machine: Kluge I4x22 EHF **Die:** Brass die by H&M Dies **Temperature:** 235° F (163°C) **Pressure:** Light/Medium

PRODUCT NAME	MHC FOILS	MTS FOILS	Additional Notes	PRODUCT NAME	MHC FOILS	MTS FOILS	Additional Notes
Arizona®	●	●	Recommend MHC for large graphics, MTS for fine line graphics. Both options work well.	Lotus™	●	●	Recommend MHC foils, however both options work well.
